Khosrow Adeli and Andre Theriault Insulin modulation of human apolipoprotein B mRNA translation: studies in an *in vitro* cell-free system from HepG2 cells **1301**

Philip J. Davis *n*-3 and *n*-6 polyunsaturated fatty acids have different effects on acyl-CoA:cholesterol acyltransferase in J774 macrophages **1313**

Xiliang Zha, Francis T. Jay, and Patrick C. Choy Effects of amino acids and ethanolamine on choline uptake and phosphatidylcholine biosynthesis in baby hamster kidney-21 cells **1319**

Gary D. Fullerton, Robert J. Zimmerman, Carlos Cantu, III, and Ivan L. Cameron New expressions to describe solution nonideal osmotic pressure, freezing point depression, and vapor pressure **1325**

Christine S. M. Chiu, Arthur K. Chan, and Jim A. Wright Inhibition of mammalian ribonucleotide reductase by *cis*-diammine-dichloroplatinum(II) **1332**

Susan E. Hahn, Joel G. Parkes, and David M. Goldberg Apolipoprotein synthesis and secretion in Hep G2 cells: effects of monensin and cycloheximide **1339**

H. S. Roychowdhury, T. J. MacAlister, J. W. Costerton, and M. Kapoor Induction and intracellular localization of the 80-kilodalton heat-shock protein of *Neurospora crassa* **1347**

H. S. Roychowdhury, D. Wong, and M. Kapoor *hsp80* of *Neurospora crassa*: cDNA cloning, gene mapping, and studies of mRNA accumulation under stress **1356**

Elizabeth A. Everitt and E. Helene Sage Overexpression of SPARC in stably transfected F9 cells mediates attachment and spreading in Ca^{2+}-deficient medium **1368**

NOTES

Peter Whyte and Robert N. Eisenman Dephosphorylation of the retinoblastoma protein during differentiation of HL60 cells **1380**

Yilun Deng and Arco Y. Jeng Soluble endothelin degradation enzyme activities in various rat tissues **1385**
